GDPR

AIA

**DSA
P2B**

MDR

MiFID II

**Missing XAI Properties
/ Research Directions**

Completeness

**Stability &
Run-to-run consistency**

**Adversarial
Robustness**

**Sparsity &
Actionability**

Confidentiality

**Runtime
performance**

**Sector-Specific
Innovation Needs**

Healthcare

Deterministic counterfactuals,
multi-feature interactions

Cybersecurity

Prompt incident explanations,
sparse alert rules

Finance

Timely financial explanations,
robustness certificates

Energy

Real-time remote-sensor
analyses, sparse fault detections

Education

Learner profile confidentiality,
scalable behaviour explanations

Digital Services

Confidentiality-preserving prototypes,
sparse rule-based content filters
